

Home work (lecture by Kurokura)

Complete the chart in ppt page 55 in the case of Filipino poverty fisheries using examples in page38.

You can set research objective by yourself, though it should be relating to the poverty alleviation in coastal community in Philippines

All the group members should be included in the chart as person in charge.

In the case, if your project include many subprojects and you do not have necessary talent in your group member, you can invite professors or your friends in our department.

Necessary item in each subject

Title, Objective, name of the person in charge

Evaluation point

Consideration of problem structure

Clarification how each person can or want to contribute to make solution
